

Town History Research and Suggested Search Terms Recovering Black History in the Monadnock Region, 1730-1930 Project

Using Archive.org to search town histories enables you to do keyword searches to find information about people you have identified in census records and to find new names using select keywords.

Archive.org has an internal search engine but it can be very hard to locate town histories this way. Instead, use Google to locate them within Archive.org.

Suggested Search Terms:

Africa
African
black
colored
enslaved
mulatto
negro
negroes
servant
servants
slave
